Los platos de ducha de Zenon Gel Coat van un paso más allá y unen en uno solo producto toda la flexibilidad de los materiales más avanzados con las diferentes texturas que puede adoptar. La madera, la pizarra, el cemento o la piedra saltan también a los platos de ducha.

Zenon Gel Coat shower trays go one step beyond and bring together all the flexibility of the most advanced materials with the various textures they can have in one single product. Wood, slate, cement, or stone also jump into the shower trays.

Les receveurs de douche de Zenon Gel Coat vont encore plus loin et proposent en un seul produit toute la flexibilité des matériaux de pointe allié aux différentes textures disponibles. Le bois, l'ardoise, le ciment ou la pierre font leur apparition sur les receveurs de douche.

I piatti doccia Zenon Gel Coat danno un passo in più e uniscono in un solo prodotto tutta la flessibilità dei materiali più avanzati con le diverse finiture che possono adottare. Il legno, l'ardesia, il cemento o la pietra arrivano nei piatti doccia.

Zenon

Gel Coat

Masa Coloreada | Coloured Body | Coloré dans la masse | Massa colorata

Los platos de ducha Zenon Gel Coat están fabricados con resinas de poliéster insaturadas tipo isoftálico neopentilglicol, algo que supone numerosas ventajas: tiene una resistencia al impacto similar a la de cualquier piedra, una mínima absorción de agua (0,1%), unas excelentes propiedades mecánicas y una excelente resistencia a la hidrólisis.

Todos los platos de ducha Zenon Gel Coat son antideslizantes y antibacterianos, dos cualidades esenciales para su uso y, además, se han fabricado bajo estrictos controles de calidad para certificar su óptimo funcionamiento.

Los platos de ducha Gel Coat de Zenon son 'masa coloreada' gracias al uso de avanzadas técnicas de compactación que nos permiten la mezcla de los componentes y su termofusión. Al mezclar previamente el tinte con las resinas, conseguimos un plato uniforme de color que no precisa de pintar posteriormente, lo cual evita, el que se pueda producir a largo plazo el efecto de rotura de la pintura superficial y un plato compacto, uniforme, sin burbujas de aire en su interior que evita el posible craquelado de la superficie.

Nuestros productos tienen una garantía de dos años por defectos de fabricación. Esta garantía queda invalidada si los defectos se deben al uso inapropiado por parte del cliente.

Les receveurs de douche Zenon Gel Coat sont fabriqués en résines de polyester insaturées de type isophthaliques/neopentyl glycol. Cela implique de nombreux avantages : elles présentent une résistance au choc semblable à celle de n'importe quelle pierre, une absorption d'eau minimale (0,1%), des propriétés mécaniques excellentes et très bonne résistance à l'hydrolyse.

Tous les receveurs de douche Zenon Gel Coat sont antidérapants et antibactériens, deux caractéristiques essentielles pour son utilisation. Leur fabrication est en outre soumise à des contrôles stricts de qualité qui certifie leur fonctionnement optimal.

Les receveurs de douche Gel Coat de Zenon sont teintés dans la masse grâce à l'utilisation de technologies de pointe de compactage qui permettent le mélange des éléments et leur fusion thermique. En mélangeant au préalable la teinture avec les résines, on obtient un receveur de douche dont la couleur est uniforme et qu'il n'est pas nécessaire de peindre ultérieurement. À long terme, cela évite l'effet de rupture de la peinture superficielle. Le receveur est compact, uniforme et sans bulles d'air internes, ce qui permet d'éviter le craquellement de la surface.

Nos produits sont garantis deux ans contre les défauts de fabrication. Cette garantie est annulée si les défauts sont dus à une utilisation inappropriée de la part du client.

Zenon Gel Coat shower trays are made with unsaturated polyester resins like isophthalic neopentylglycol, which have numerous advantages: they have an impact resistance similar to that of any stone, minimal absorption (0,1%), excellent mechanic properties, and excellent resistance to hydrolysis.

All Zenon Gel Coat shower trays are non-slip and antibacterial, two qualities essential for their use, and they have also been manufactured under strict quality controls to certify their optimal performance.

Zenon Gel Coat shower trays are 'colored body' thanks to the use of advanced compacting techniques that allow for the mix of the components and their thermofusion. When we first mix the dye with the resins, we obtain a uniform-color tray that does not require subsequent painting, thus preventing the surface paint from breaking in the long-term effect break and achieving a compact, uniform tray without air bubbles inside, which prevents potential cracking of the surface.

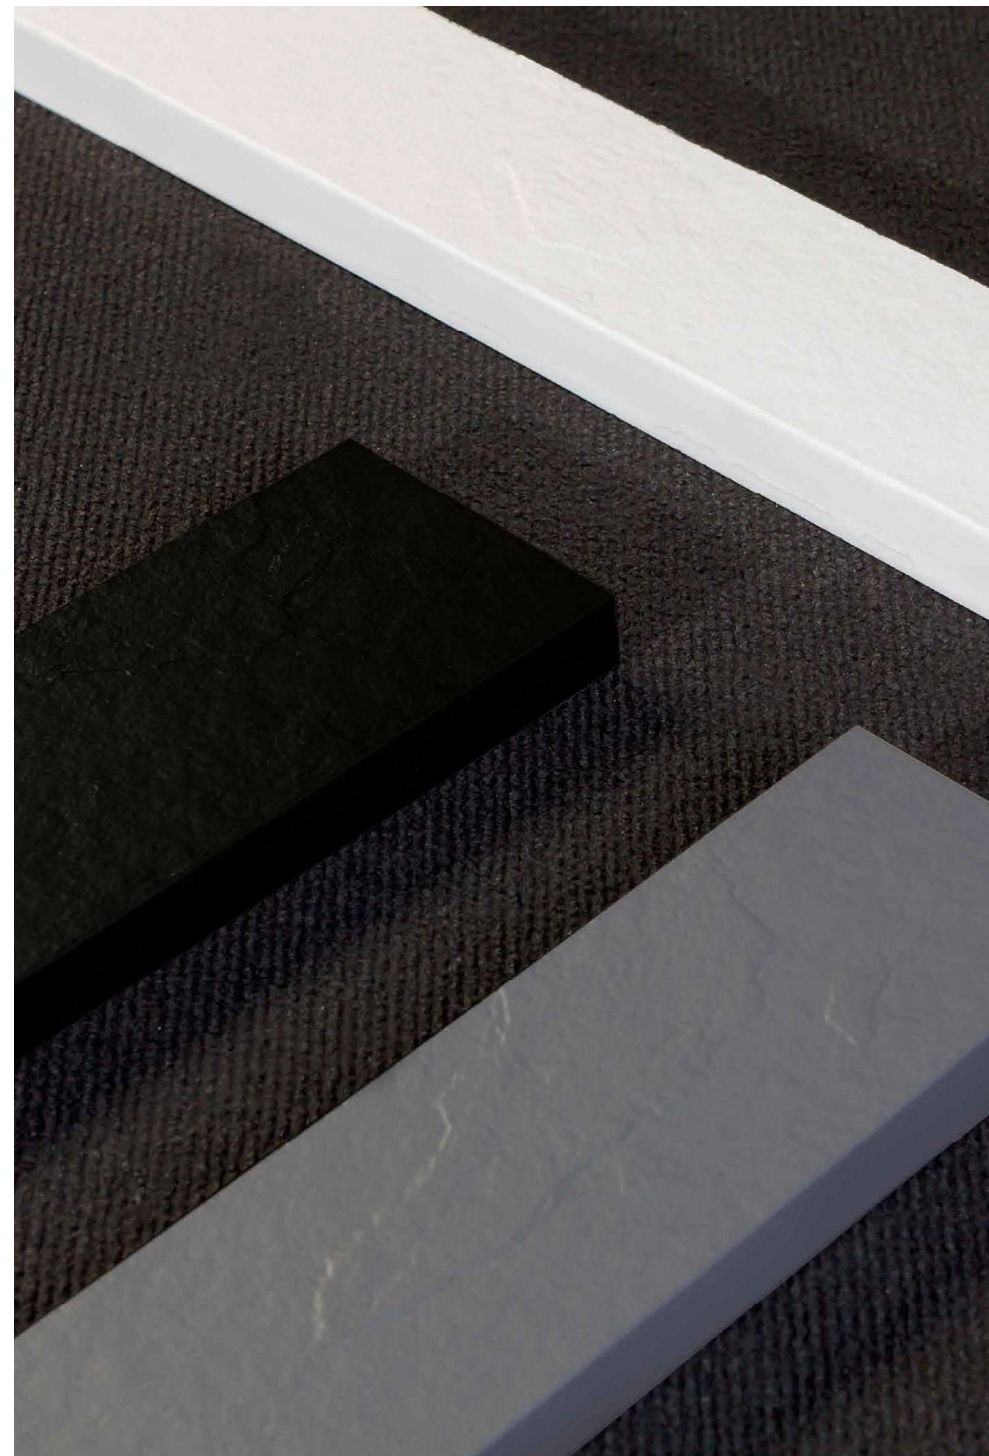

Our products have a two-year guarantee against manufacturing defects. This warranty is void if the defects are due to an incorrect use by the customer.

I piatti doccia Zenon Gel Coat sono fabbricati con resine di poliestere insature di tipo isoftalico/neopentilglicole, che comportano numerosi vantaggi: hanno una resistenza all'urto simile a qualsiasi pietra, un minimo assorbimento di acqua (0,1%), delle eccellenti proprietà meccaniche e un'eccellente resistenza all'idrolisi.

Tutti i piatti doccia Zenon Gel Coat sono antiscivolo e antibatterici, due qualità essenziali, inoltre sono stati fabbricati sotto stretti controlli di qualità per certificarne il funzionamento ottimale.

I piatti doccia Gel Coat di Zenon sono in "pasta colorata" grazie all'impiego di avanzate tecniche di compattamento che consentono di mescolare i componenti e la loro fusione termica. Mischiando precedentemente la tinta con le resine, si ottiene un piatto dal colore uniforme che non deve essere verniciato successivamente. In tal modo si evita che a lungo termine si la pittura superficiale spelli per avere un piatto compatto, uniforme, senza bolle d'aria all'interno che evita la screpolatura della superficie.

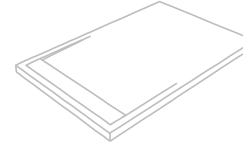

I nostri prodotti hanno una garanzia di due anni per difetti di fabbricazione. La garanzia decade qualora i difetti fossero dovuti a un uso inappropriato da parte del cliente.

SLATE

Nada más sencillo y al mismo tiempo más sofisticado que un plato de ducha con aspecto de pizarra, propiedades antideslizantes y toda la comodidad que aporta Zenon Gel Coat.

There is nothing simpler and at the same time more elegant than a shower tray that looks like slate, has anti-slip properties, and all the comfort provided by Zenon Gel Coat.

Rien de plus simple et en même temps de plus sophistiqué qu'un receveur de douche avec l'aspect de l'ardoise, des propriétés antidérapantes et tout le confort que procure Zenon Gel Coat.

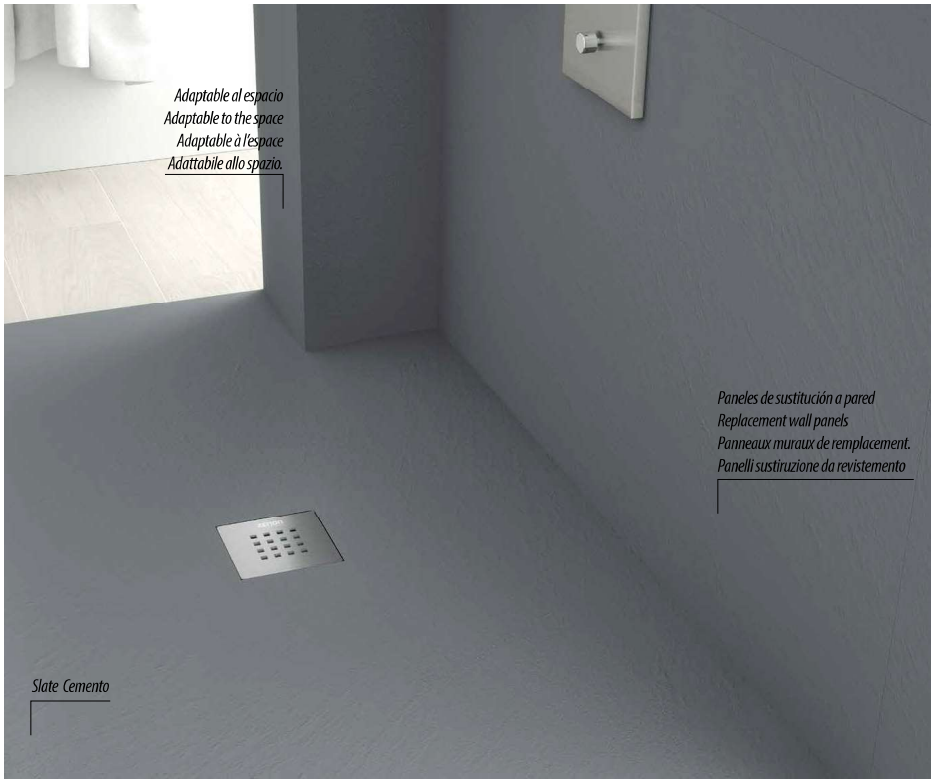

Niente di più semplice e allo stesso tempo sofisticato di un piatto doccia con l'aspetto di ardesia, proprietà antiscivolo e tutta la comodità di Zenon Gel Coat.

ANGULAR

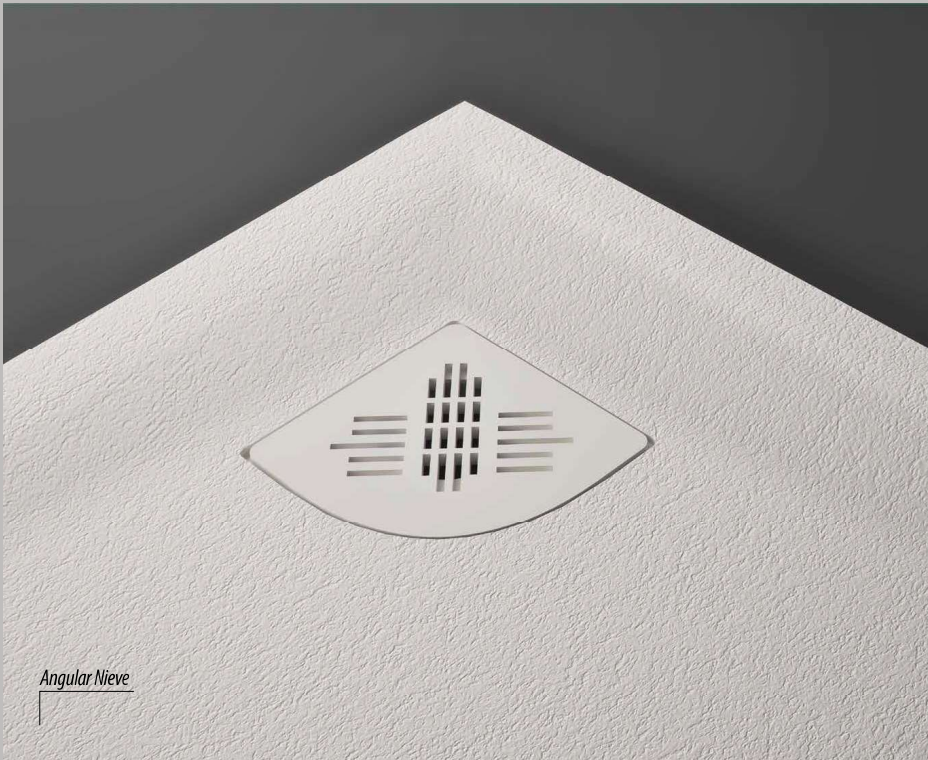

*Porque menos no sólo es más, sino mucho más.
Porque los espacios reducidos pueden tener
también su carácter único y porque muchas veces
no hay nada tan grande como ser pequeño.*

*Because less is not just more, but much more.
Because reduced spaces can also have their unique
character, and because quite often there is nothing
as great as being small.*

*Parce que moins veut dire plus, voire beaucoup plus.
Parce que les espaces réduits peuvent aussi avoir du
caractère et parce que très souvent, rien n'est plus
grand que d'être petit*

*Perché il meno non è solo più, bensì molto di più.
Perché gli spazi ridotti possono anche avere un
carattere unico e perché molte volte non c'è niente di
così grande come l'essere piccolo.*

WOOD

Zenon Gel Coat hace realidad lo que antes parecía imposible y prueba de ello es la serie Wood, que lleva todo el poder de seducción de la madera a un espacio antes impensable como el baño.

Zenon Gel Coat makes what once seemed impossible to come true, and the Wood series is a proof of it; it brings the wood's power of seduction to a space such as the bathroom, where it was previously unthinkable.

Zenon Gel Coat réalise ce qui paraissait impossible, comme le prouve la série Wood qui intègre tout le pouvoir de séduction du bois dans un espace auparavant impensable comme la salle de bains.

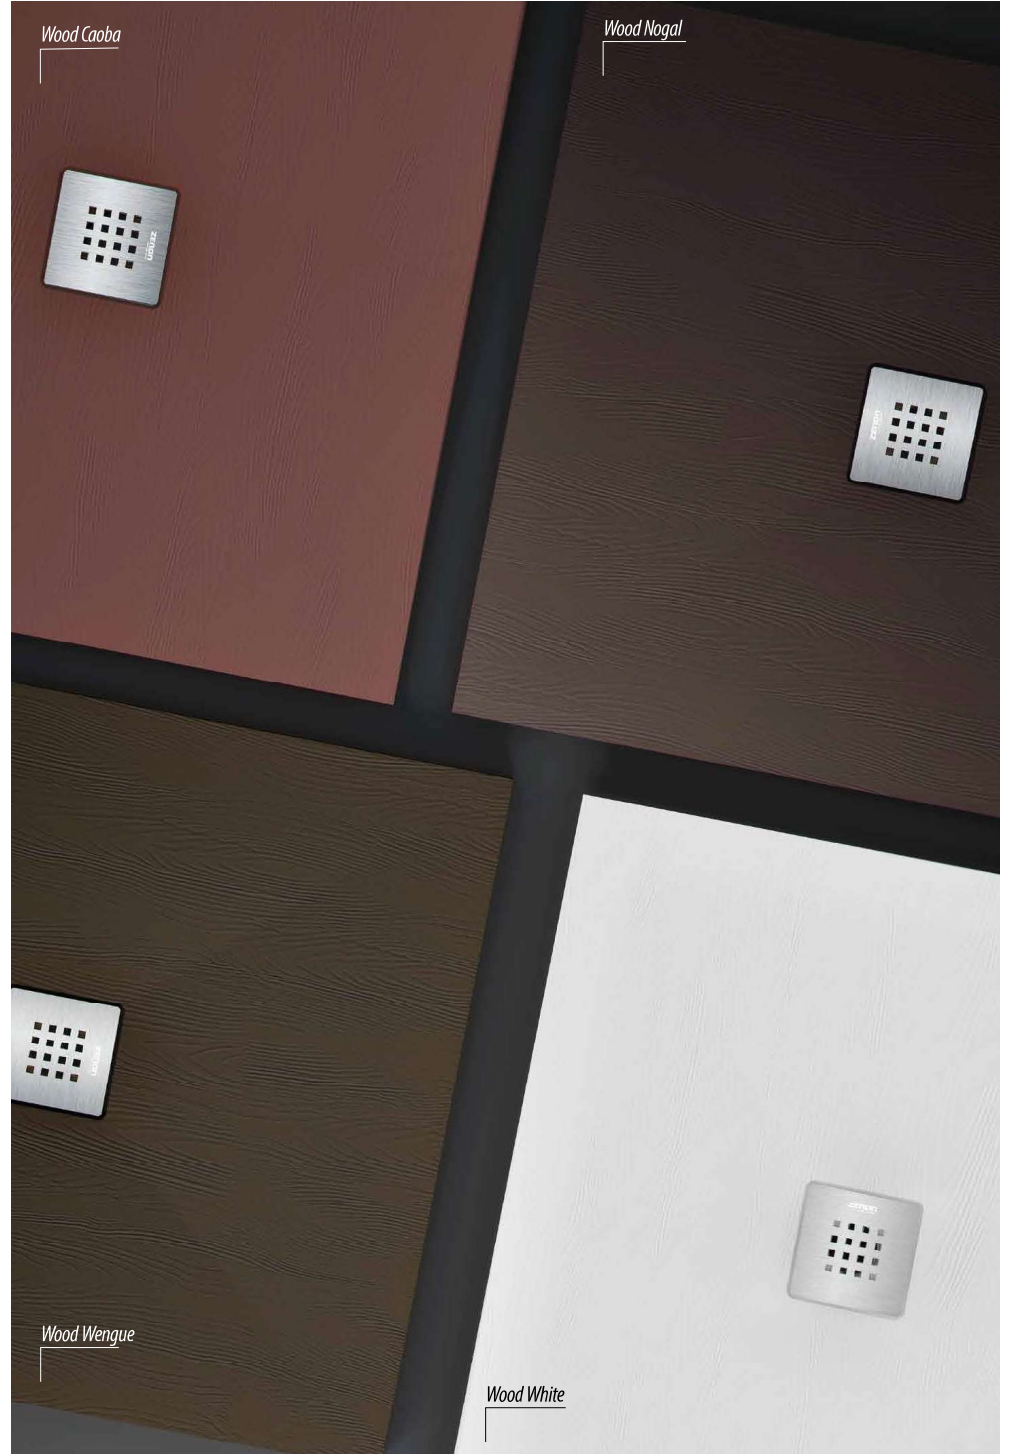

Zenon Gel Coat rende reale ciò che prima sembrava impossibile e la serie Wood ne è la prova, portando tutto il potere di seduzione del legno in uno spazio prima impensabile come il bagno.
